

To whom it may concern,

We are writing to express support for a new Saturday Farmer's Market produced by Raul Lopez at Good Roots Events. As residents and business owners in Carmel-by-the-Sea we would welcome the Saturday market for our own enjoyment and to bring buzz and people to town another day of the week.

Our kids love attending the Thursday Farmers Market - but most weeks they are in school. Having a Saturday option would allow them to stroll through the market, help mama select our produce and flowers for the week, and of course pick up a sweet treat.

As owners of Stationæry, a restaurant just down the street from the market, we love Thursdays! It brings life and people to the area which benefits our business. We believe that more opportunities to connect with the community, support local farmers and vendors, and be outside is what Carmel-by-the-Sea should be supporting. A rising tide lifts all boats! Carmel-by-the-Sea is a world class destination nestled near an agricultural hub that grows some of the most incredible produce in the country. What an honor to be able to feature that in town for the locals and guests alike!

We urge you to support the new Saturday Carmel-by-the-Sea Farmer's Market!

Our best,

Alissa & Anthony Carnazzo
