

To Whom It May Concern,

I am writing to express my strong support for the expansion of the Carmel by the Sea Farmers Market to include an additional day beyond Thursdays. While the Thursday market provides a wonderful opportunity to access fresh local products, it unfortunately coincides with many work schedules, making it difficult for a significant portion of the community to participate.

Many residents, myself included, have busy work schedules that extend into the afternoon or evening on Thursdays. This limitation significantly hinders our ability to enjoy the benefits of the market.

Adding an additional market day, such as a Saturday morning, would greatly increase accessibility for working residents. This would allow more people to experience the market's offerings and contribute to the vibrancy of the local scene.

I believe an additional market day would not only benefit residents but also vendors. By catering to a wider audience, farmers and vendors would have the opportunity to expand their customer base and potentially increase their sales.

I urge you to seriously consider the addition of a second market day. It would be a significant step towards making local products more accessible to a wider range of residents and further strengthen our community's connection to local agriculture and vendors.

Thank you for your time and consideration.

Sincerely,

Nicole Cromwell
