Hello Evan,

I am writing in support of the project: DS 24089 & LM 24151

As the designer of the neighboring project (soon to start construction), I find the proposal to be a great compliment to the neighborhoods aesthetic, scale and character. This proposal as shown will be a welcome addition to this streetscape and Carmel. The combination of material choices and architectural forms are very inviting and blend seamlessly into the Carmel aesthetic.

Regards,
Alan
