Dear Carmel by the Sea Planning Commission Members,

I live in the apartment to the west of the proposed JB Pastor Building. I would very much like to invite all of you to see the impacts of the new proposed building on my home.

I cannot express in words the level of distress I am feeling from the notion that I could be boxed in. My apartment was built facing the west and much of the light I have comes from the windows to the west.

I know that tomorrow's tour will have limited time so I am more than happy to open my home anytime today or tomorrow for you to visit.

My phone number is 831 277 0173 if you would like to come before tomorrow's tour.

Sincerely,
Kristi
