12.46.010 Purpose and Findings.

A. Purpose. The purpose of this chapter is to establish a sidewalk vendor permitting and regulatory program that complies with Senate Bill 946 (Chapter 459, Statutes 2018). The provisions of this chapter bring the City into compliance with Senate Bill 946 by removing total prohibitions on sidewalk vending activities while still permitting regulation and enforcement of such activities. Sections 53036-53039 of the California Government Code confers upon local governments the authority to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry. The requirements set forth in this chapter are intended to protect the public's health, safety, and welfare by ensuring that vendors on public property provide safe and sanitary conditions for consumers and the general public, are adequately insured, are properly licensed with other agencies, and that the total number of allowed vending permits in the commercial and residential districts is limited. This chapter is adopted pursuant to the City's police powers for the purpose of regulating vending on public property.

B. Findings. The City Council hereby finds that limitations on sidewalk vending are necessary to:

- a. Comply with State Legislation;
- b. Promote the health, safety and welfare;
- c. Ensure that the Goals and Policies of the City's General Plan are upheld;
- d. Ensure that the flow of pedestrian or vehicular traffic including ingress into, or egress from, any residence, public building, or place of business, or from the street to the sidewalk, by persons exiting or entering parked or standing vehicles is maintained;

- e. Provide reasonable access for the use and maintenance of sidewalks, pathways, hydrants, restrooms, trash receptacles, firefighting apparatus, as well as access to locations used for public transportation services
- f. Protect the quality of life of City residents and minimize disruptions to the quiet enjoyment of residential property by restricting noise-making devices associated with sidewalk vending;
- g. Ensure no interference to the performance of police, firefighter, and emergency other medical personnel services;
- h. Maximize public access in the commercial districts and along the coast; and
- i. Reduce exposure to the City for personal injury or property damage claims and litigation.

C. The City Council hereby finds that the unique characteristics of the City require certain restrictions on sidewalk vending as follows:

- 1. The majority of the sidewalks and pathways in the City are under ten (10) feet wide and sidewalk vending in these areas would unreasonably interfere with the flow of pedestrians and disrupt access for persons with disabilities in compliance with the American with Disabilities Act (ADA);
- 2. The City's Commercial District and associated sidewalk areas are extremely popular tourist destinations with unusually high pedestrian and vehicular traffic volumes in which most of the segments of sidewalk are under ten (10) feet in width. A limit on the number of sidewalk vending permits issued by the City is necessary to protect the public from injury given the popularity of these tourist destinations and the narrow sidewalks;
- 3. The majority of the City's Residential District does not contain City-recognized sidewalks and pedestrian access is limited to the roadway. A limit on the number of sidewalk vending permits issued by the City is necessary to protect the public from injury given the lack of recognized sidewalks;
- 4. Devendorf Park is .60 acres in size and offers passive types of uses such as picnic. A limit on the number of sidewalk vending permits for Devendorf Park is necessary to promote public health, safety and welfare, and to prevent an undue concentration of commercial activity that unreasonably interferes with the scenic and natural character of the park.
- 5. The Police Department and Fire Department contain critical infrastructure and restrictions around these facilities are necessary to ensuring health, safety and welfare of the public;
- 6. Carmel Beach is a coastal and scenic resource and restrictions of sidewalk vending on and around the beach are necessary to protect this resource;

7. The Scenic Pathway is a narrow dirt path located adjacent to Carmel Beach and is a popular tourist destination with high pedestrian traffic volumes. Restrictions on sidewalk vending along the path are necessary to protect the public from injury given the popularity of these tourist destinations and the multiple litigation experiences of the City pertaining to this area; and
8. Mission Trail Nature Preserve is natural resource designated as an environmentally sensitive habitat area. Restrictions of sidewalk vending at this location are necessary to preserve this natural resource.
