CITY OF CARMEL-BY-THE-SEA CITY COUNCIL Staff Report

July 6, 2021
CONSENT AGENDA

TO: Honorable Mayor and City Council Members

SUBMITTED BY: Robin Scattini, Finance Manager

APPROVED BY: Chip Rerig, City Administrator

SUBJECT: May 2021 Check Register Summary

RECOMMENDATION:

Approve the check register for May 2021.

BACKGROUND/SUMMARY:

The check register is produced from the City's financial system. The report groups the checks by the respective department or function. The check register includes the check number, the name of the vendor, a description of the purchase, the check issue date and the amount of the check. Per the California Supreme Court's decision in the case of Los Angeles County Board of Supervisors v. Superior Court (Dec. 29, 2016) (2016 WL 7473802), the check register excludes the specific invoice payments for legal services incurred for pending and active investigations, pending and active litigation, as well as recently concluded matters. The Supreme Court has ruled that these specific invoices are protected under attorney-client privilege and need not be disclosed under the Public Records Act.

On the last page of the report, staff have included the contract balance for the respective vendors that were paid in May.

FISCAL IMPACT:

The check register summary for May 2021 totals \$1,423,502.

PRIOR CITY COUNCIL ACTION:

Council ratified the April 2021 check register at its June 1 regular meeting.

CITY OF CARMEL-BY-THE-SEA CITY COUNCIL Staff Report

July 6, 2021
CONSENT AGENDA

TO:	Honorable Mayor and City Council Members
SUBMITTED BY:	Agnes Martelet, Manager, Environmental Compliance
APPROVED BY:	Chip Rerig, City Administrator
SUBJECT:	Letter authorizing the County of Monterey to execute all documents necessary to continue to implement the annual Used Oil Payment Program on behalf of the City during FY 2021/22

RECOMMENDATION:

Authorize the City Administrator to send a letter (Attachment #2) authorizing the County of Monterey to execute all documents necessary to continue to implement the annual used Oil Payment Program on behalf of the City during Fiscal Year 2021/22.

BACKGROUND/SUMMARY:

For over 15 years, the Monterey County Environmental Health Bureau has successfully partnered with the City and other local municipalities to implement a countywide Used Oil and Filter Recycling Program. This program is funded by an Oil Payment Program (OPP) grant from the California Department of Resources Recycling and Recovery (CalRecycle). Monterey County Environmental Health Bureau has served as the administrator of the OPP on behalf of all cities and the unincorporated area of the County, resulting in the leveraging of resources and consistency in outreach efforts.

In Fiscal Year (FY) 2019/20, the County collected 194,103 gallons of oil and 46,170 oil filters for proper disposal. Over the past FY, the County ran over 800 ads through various media outlets, including radio, newspaper and online, organized 9 used oil filter collection events, and hosted 5 outreach events. Additional program highlights are included in the County's letter to the City (Attachment #1).

FISCAL IMPACT:

The program is funded by a CalRecycle grant and thus does not impact the City's budget.

PRIOR CITY COUNCIL ACTION:

Council authorized sending a letter on July 7, 2020 to continue the program in FY 2020/21.

Dear Mr. Rerig:

Each year the Monterey County Environmental Health Bureau (EHB) requests a letter of authorization from the City Administrator or designee authorizing the County of Monterey to execute all documents necessary to continue to implement the annual Oil Payment Program Cycle 12 (OPP12) on your city's behalf. A sample letter is enclosed for your convenience. **We request that you return the signed authorization letter to our office by June 28, 2021** to ensure timely submittal to CalRecycle.

For over 15 years, the EHB has administered a successful countywide Used Oil & Filter Recycling Program on behalf of all cities and the unincorporated area of Monterey County. The Program is funded by a grant from the California Department of Resources Recycling and Recovery (CalRecycle) and supports used oil and filter recycling activities throughout the County. Enclosed is the FY 2019-2020 Annual Report Summary detailing the activities, outreach events and volume collected as a result of this program. Below are a few highlights of program activities:

- Hosted 9 used oil filter collection events around the County,
- Ran over 830 ads in English and Spanish through various media outlets including radio, newspaper and online, and
- Through our contracted vendor Save Our Shores, hosted 5 outreach events held at local harbors targeting boaters.

Continuing to pool funds allows both the Cities and County to continue to achieve greater efficiencies by maximizing resources, allowing consistency in outreach efforts and preventing duplication of labor. I look forward to continue working with your city in providing used oil and filter recycling services to our community.

Please contact Recycling Services at (831) 755-4579 should you need further information regarding this program.

Sincerely,

Ric Encarnacion, REHS, MPH

Program Highlights

Attachment 1

Theme: One of the main activities of the Used Oil Program is to promote/increase used oil filter collection. What activities did you conduct to increase used oil filter collection?

The Monterey County Used Oil and Filter Recycling Program continued to educate on the importance of recycling used oil and filters. During the 2019 calendar year Monterey County Environmental Health (MCEH) increased Filter Exchange Events, placed print and radio advertisements, purchased oil containers and lids for the curbside program, conducted site visits to local Certified Collection Centers (CCC's) and continued to cover the cost of used oil and filter hauling for garbage and recycling haulers, agricultural and marine centers. The program also continues to cover the cost of maintenance and repairs of oil tanks at various oil collection sites.

- o Incorporated 9 Used Oil Filter Collection events in (3) of the south county cities community clean up events as well as tabled at various Certified Collection Centers around the County:
 - o Salinas- March 23, 2020, AutoZone Auto Parts, 1541 N. Sanborn Road
 - o King City - April 13, 2019, O'Reilly Auto Parts, 743 Broadway Street
 - o Soledad – May 18, 2019, Auto Zone, 2092 H De La Rosa Street
 - o Greenfield- May 25, 2019, AutoZone Auto Parts, 722 Walnut Avenue
 - o Salinas – June 8, 2019, Napa Auto Parts, 11 W Bernal Drive
 - o Marina – August 17, 2019, Auto Zone, 262 Reservation Road
 - o Soledad – September 28, 2019, O'Reilly Auto Parts, 2233 H Dela Rosa Sr Street
 - o Gonzales – October 12, 2019, Napa Auto Parts, 724 Alta Street
 - o Greenfield – November 11, 2019, AutoZone Auto Parts, 722 Walnut Avenue
- o Community clean up events allow customers to drop off clothing, reusable items, large bulky items and hazardous household waste. Residents that take advantage of the cleanup events look forward to the filter exchange events and are always appreciative of the opportunity to be able to receive a brand-new filter when recycling their used one (up to 2 per customer).
- o Paid for 16 advertisements in local newspapers such as King City Rustler, Soledad Bee, Gonzales Tribune, Greenfield News.
- o Paid for 815 radio ads both in English and Spanish radio iHeart Radio on the Total Traffic & Weather Network focusing on the residential and curbside collection programs. Advertisements are played on KDON 102.5, KION 101.1FM, KOCN 105.1, KTOM 92.7 and La Preciosa KPRC
- o Participated in community events such as: AG Expo, Gabilan Resource Fair, Chualar Community Meeting, Dia Del Trajabador, Hazardous Waste Conference, Gonzales Community Clean Up, Soledad Reuse, Recycle & Clean Up Day and Greenfield Reuse, Recycle & Clean Up Day. Information about the program is also posted on the Monterey County Health Department website. In 2020, MCEH staff plans to establish an additional social media platform (Instagram) as a way to educate residents about proper oil and filter disposal.
- o Conducted 29 Certified Collection Center site visits

MCEH continued partnership with Save Our Shore to perform outreach to boaters at local marinas. Save Our Shores provides clean and green boating information and supply kits to boaters in Monterey County. A total of 5 dock walker events held by Save Our Shores in 2019.

Did you increase or decrease used oil and filter collection compared to last year? How much and why?

Overall, Monterey County used oil and filter collection data shows an increase in used oil collection and a decrease in filter collection compared to 2018. The decrease could be the cause of the following:

- Filter data for Auto Zone collection centers show a huge decrease compared to 2018. Monterey County staff will be in touch with Auto Zone to seek input on why they had such a large decrease in filter collection.
- O' Reilly collection centers continue to not report filter collection for their stores.

The total gallons of used oil collected in 2019: 194,103 gallons. This was a 4.39% increase in used oil collection compared to prior year.

The total number of used oil filters collected in 2019: 46,170 filters. This was a -25.43% decrease in used oil filters compared to prior year. The decrease is mainly attributed to the Auto Zone stores total filters collected from do-it-yourselfers.

Oil Collection at CCC's increased by 4.40% and filters decreased by -74.68% compared to 2018. MCEH staff called and emailed centers directly to obtain oil and filters collected by do-it-yourselfers; report also includes data provided from CalRecycle.

Collection at PHHW/ABOP's increased by 2.83% for used oil and 2.51% in filter collection. The increase of both oil and filters collected might be attributed to increased advertising and tabling at events of HHW facilities by those facilities. Information on HHW is also listed on the facilities websites as well as Monterey County's

Collection at Agricultural Used Collection centers increased by 9.92% for used oil and 0.44% for filters. Collection at Sturdy Oil continued to increase. We have noticed that the majority of oil is collected at the Sturdy Oil location. Sturdy Oil is in the Salinas Valley and is in the center of agricultural community.

Used oil collection for the Curbside program decreased slightly by -2.40% and by -9.51% for filter collection. The reduction in both categories is surprising since a large amount of the advertisements that were ran focused on the curbside program. A new supply of oil containers were purchased in 2019 for the program and we are making sure that a filter bag is placed on the container to ensure the resident and quick and convenient access for recycling their used oil filter. The goal for next year is to increase the use of our social media platforms in sharing information on this topic. Staff used the data provided by Cal Recycle, manifest provided by Bayside Oil, our used oil hauler and contacted the haulers directly to obtain this data.

Marine

Used oil collection at marine centers took a dip in both categories by -4% in used oil and -33.33% used oil filters compared to 2018. MCEB continues to utilize Save Our Shores (SOS) who provides education to boaters.

- 7/12/2019 Breakwater Cove
- 7/12/2019 Monterey Municipal Marina
- 8/17/2019 Lake Nacimiento

- 10/26/2019 Breakwater Cove

Non-certified Centers:

No oil or filter data was collected from or reported by in 2019.

Were there any program changes from this year to last year?

MCEH increased filter exchange events in 2019 as part of our outreach and education. MCEH staff tabled at community clean up events as well as certified collections centers around the County. In 2019, the total number of filter exchange events held were 9. Filter exchange events seem to be greatly received and is a great way to increase awareness of the program, answer questions and provide residents with rags, funnels, or other necessities for the DIYers.

If you dropped a program or method, why do you think it didn't work?

King City agricultural collection center closed in 2019. This closure was mainly due to limited staffing.

What program or method has worked best for you?

Continuing to target events where a good percentage of attendees are bilingual and do-it-yourselfers seems to be the best opportunity for educating on proper recycling.

Did you develop any best practices or techniques to share with other grantees?

Not at this time.

What can CalRecycle do to help you? Or what would you like to see modified to better assist you?

An idea would be to create a networking group of jurisdictions to get together to share success stories and new ideas for education.

CITY OF CARMEL-BY-THE-SEA CITY COUNCIL Staff Report

July 6, 2021
CONSENT AGENDA

TO:	Honorable Mayor and City Council Members
SUBMITTED BY:	Agnes Martelet, Manager, Environmental Compliance
APPROVED BY:	Chip Rerig, City Administrator
SUBJECT:	Resolution 2021-034 approving the Grant of Funds from the California State Coastal Conservancy for the Mission Trail Nature Preserve Fire Fuel Abatement Project and approving a Budget Amendment of \$45,000 to the Fiscal Year 2021-2022 Adopted Budget

RECOMMENDATION:

Adopt Resolution 2021-034 approving the Grant of Funds from the California State Coastal Conservancy for the Mission Trail Nature Preserve Fire Fuel Abatement Project and approving a Budget Amendment of \$45,000 to the Fiscal Year 2021-2022 Adopted Budget.

BACKGROUND/SUMMARY:

In April 2021, the City submitted an application to the State Coastal Conservancy for funding under the Forest Health and Wildfire Resilience Grant Program. The purpose of the Program is to develop and implement projects that improve forest health and reduce the risk of catastrophic fire in areas where people are living near open spaces. The City requested \$45,000 to support fire fuel reduction efforts at the Mission Trail Nature Preserve.

On June 7, 2021, the Board of the State Coastal Conservancy authorized funding totaling over \$10.8 million for 33 projects throughout the coast of California, including \$45,000 for the Mission Trail Nature Preserve Fire Fuel Abatement Project. The grant funds will be utilized to supplement funds from the City and the Friends of Mission Trail Nature Preserve to conduct invasive species and fire fuel management actions, particularly along the western edge of the Preserve where it abuts residential properties along Ridgewood Road, and on the eastern side of the Preserve, near Flander's Mansion. Project and grant management will be provided by Public Works. Staff anticipates working closely with the Friends of Mission Trail Nature Preserve, PG&E, the Fire Department, and our consulting biologist, Nikki Nedeff, to ensure successful fire fuel abatement that will minimize impacts to sensitive habitats and species in the Preserve.

In order to disburse any grant funds, the State Coastal Conservancy requires that the City Council adopt a resolution designating a position that is authorized to negotiate and execute the Grant Agreement and amendments on behalf of the City (Attachment 1).

FISCAL IMPACT:

The City Council has allocated \$10,000 to the Mission Trail Nature Preserve Restoration in the Environmental Division Contract Services fund of the Public Works Department (Account no. 101-119-43-42001) in Fiscal Year 2021-22. This grant will add \$45,000 to this budget in Fiscal Year 2021/22, which brings the budget total to \$55,000.

PRIOR CITY COUNCIL ACTION:

In May 2021, the Planning Commission approved a 5-year extension to the Coastal Development Permit (CDP) for the Mission Trail Nature Preserve Restoration Project. The CDP includes weed and fire fuel abatement as an authorized activity.

CITY OF CARMEL-BY-THE-SEA CITY COUNCIL Staff Report

July 6, 2021
CONSENT AGENDA

TO:	Honorable Mayor and City Council Members
SUBMITTED BY:	Sharon Friedrichsen - Director, Contracts and Budgets
APPROVED BY:	Chip Rerig, City Administrator
SUBJECT:	Resolution 2021-035 authorizing the City Administrator to execute Amendment No. 3 to the agreement with Peninsula Messenger Service for mail delivery for a not to exceed increase of \$122,000 for the term of July 1, 2021 to December 31, 2022

RECOMMENDATION:

Adopt Resolution 2021-035 authorizing the City Administrator to execute Amendment No. 3 to the agreement with Peninsula Messenger Service for mail delivery for a not to exceed increase of \$122,000 for the term of July 1, 2021 to December 31, 2022

BACKGROUND/SUMMARY:

The City of Carmel-by-the-Sea does not have house numbers. Nor does the community support the use of group or clustered mailboxes. Therefore, the use of post office boxes is an alternative to the United States Postal Service delivering mail directly to residential homes. The City contracts with a courier service, Peninsula Messenger Service, and pays for residential home mail delivery services for residents upon request.

On March 3, 2020, Council directed staff to modify the mail service program to incorporate the use of eligibility criteria. Specifically, residents whom are able to document that they are physically unable to obtain their mail directly from the post office are eligible to participate in the mail delivery program at no cost to the resident. However, as the program changes coincided with the emergence of the Coronavirus and shelter in place protocols issued by the County of Monterey and the State of California, Council provided direction to defer the implementation of the new program until 60 days after the lifting of the shelter in place restrictions. (On June 1, 2021, Council adopted Resolution 2021-027 and confirmed August 15, 2021 as the effective date for the modified program.)

On January 5, 2021, Council authorized the City Administrator to execute Amendment No. 2 to the agreement with Peninsula Messenger Service to extend the term of the contract through June 30, 2021. The purpose of this agenda item is to (1) extend the term of the agreement through December 31, 2021 and (2) increase the not to exceed amount of the agreement by \$120,000. In addition, the second amendment also establishes a sliding fee scale for service based upon the number of post office boxes enrolled within the program.

Currently Peninsula Messenger Service charges \$41 a month for each post office box holder. As the vendor has set fixed costs of operating, such as employees, vans, insurance, and post office box fees, a certain volume of accounts is required to provide this service. The number of post office box accounts from the period from January 2020 to May 2021 ranged from a low of 146 to a high of 187 with an average of 167 accounts. However, it is unknown how many of these accounts will be deemed eligible to receive the service at the City's expense and/or how many accounts will pay to receive continued service. Peninsula Messenger Service has proposed a minimum of 25 accounts and the following fees as shown in Table 1, Proposed Fee Schedule.

Table 1: Proposed Fee Schedule

Number of Customers/Accounts	Monthly Fee
1-40	\$168
41-50	\$131
51-65	\$98
66-78	\$84
79-98	\$59
99-113	\$48
114 or more	\$45

FISCAL IMPACT:

The not to exceed contract authorization for the agreement and the subsequent two amendments totals \$200,200 and covers the term of January 1, 2019 to June 30, 2021. The City has spent \$189,054 from January 2019 to June 2021. The third amendment is for the term of July 1, 2021 to December 31, 2022 for a not to exceed amount of \$122,000. The not to exceed amount includes up to \$81,000 for July 1, 2021 to June 30, 2022 and up to \$41,000 for July 1, 2022 to December 31, 2022. Upon approval of the third amendment, the total amount of the agreement is \$324,200 for the term of January 1, 2019 to December 31, 2022.

The Fiscal Year 2021-2022 Adopted Budget includes \$81,000 for this service. The budget assumed 150 accounts per month, based on the historical average number of total enrolled post office box accounts, with a potential fee increase to \$45 month per account. This equates to \$6,750 a month. The percentage of accounts that will be determined to be eligible based on the program criteria is unknown at this time.

Depending on the number of mail service requests that the City approves and pays for, it is possible that the City will pay significantly more per account. However, if the overall volume decreases, it is possible to achieve savings, even with the higher monthly fee, as illustrated in the attached Table 2, Fee Scenarios. Staff will monitor service levels and rates and return to Council with an update, including seeking direction as needed regarding any additional program modifications.

PRIOR CITY COUNCIL ACTION:

1. On January 8, 2019, the City Council adopted Resolution 2019-003 to approve an agreement with Peninsula Messenger Service for mail delivery for the term of January 1, 2019 to December 31, 2019 for a not to exceed amount of \$70,200 on ("Agreement").
2. On January 7, 2020, the City Council adopted Resolution 2020-005 pertaining to the first amendment to

the Agreement to (1) extend the term through December 31, 2021, (2) approve a rate increase from \$39 to \$41 per post office box and (3) increase the not to exceed amount by \$72,000.

3. On January 5, 2021, the City Council authorized the second amendment to the Agreement by adopting Resolution 2021-003, which extended the term through June 30, 2021 and increased the contract amount by an additional \$58,000.

All coverage available to the Firm's named insured shall also be available and applicable to the additional insured. In no event shall any SIR or insurance policy contain language, whether added by endorsement or contained in the policy conditions, that prohibits satisfaction of any self-insured provision or requirement by anyone other than the named insured, or by any means including other insurance, or which is intended to defeat the intent or protection of an additional insured.

CITY OF CARMEL-BY-THE-SEA CITY COUNCIL Staff Report

July 6, 2021
CONSENT AGENDA

TO: Honorable Mayor and City Council Members

SUBMITTED BY: Robert Harary, P.E, Director of Public Works

APPROVED BY: Chip Rerig, City Administrator

SUBJECT: Resolution 2021-037 authorizing the City Administrator to execute Amendment No. 5 with Pureserve Building Services, Inc., extending the existing janitorial services contract through December 31, 2021 for a fee of \$97,000, plus a supplemental services contingency of \$5,000, for a not-to-exceed total of \$102,000

RECOMMENDATION:

Adopt Resolution 2021-037 authorizing the City Administrator to execute Amendment No. 5 with Pureserve Building Services, Inc., extending the existing janitorial services contract through December 31, 2021 for a fee of \$97,000, plus a supplemental services contingency of \$5,000, for a not-to-exceed total of \$102,000.

BACKGROUND/SUMMARY:

In 2015, the City issued a Request for Proposals to janitorial contractors to clean six (6) City-owned buildings and seven (7) restroom facilities, and furnish cleaning supplies and consumables, such as trash bags, soap, paper towels, etc. Six proposals were received, and the two most qualified firms were interviewed by a selection committee.

The Committee recommended a firm starting in Fiscal Year 2015/16. However, after the City Council awarded a contract, the firm did not meet the required cleaning specifications, and their contract was terminated. The next best qualified firm was then known as Proserve Facility Service. The City Council awarded Proserve a 2-1/3 year professional services agreement, effective March 2016 and ending June 30, 2018, with the option of extending the term up to three more fiscal years. Due to good performance, the City did elect to extend their contract through the subsequent three (3) fiscal year term which expired on June 30, 2021. During this time, the firm was re-named Pureserve Building Services, Inc. (Pureserve).

Staff drafted a new RFP for janitorial services which will be based on the updated professional services agreement, enhanced enforcement tools for inadequate performance, and improved services and consumables based on "lessons learned" over the past five (5) years. Unfortunately, the lack of staff resources resulting from budget reductions due to Covid-19, caused this RFP to fall well behind schedule. Without an interim contract extension with Pureserve, janitorial services would cease.

The scope of services includes six days a week cleaning at the Police Station, twice weekly cleanings at City Hall, Harrison Memorial and Park Branch Libraries, and weekly cleanings at Public Works and the Vista Lobos facility. Also included are daily cleanings at public restrooms at Del Mar, Devendorf Park, Scenic/Santa Lucia, First Murphy Park, Forest Hill Park (2), and Piccadilly Park, some cleaned multiple times per day during peak summer season. The City and Contractor share a web-based reporting tool to track work completed and performance quality. A budget for supplemental services has proven to be a useful tool in the past to quickly increase cleaning frequencies, particularly during holiday and summer weekends, and special events.

In June 2020, when the City budget was facing a significant shortfall of revenue, Pureserve agreed to reduce their fee by 14%, from a FY 2019/20 budget of \$231,587 down to a budget of \$198,349 for FY 2020/21, while only trimming the frequency of cleaning services in certain buildings. Very few complaints were generated by this trimmed level of service, and therefore, the trimmed level of service should remain for the six month extension. Pureserve is now requesting a modest, and reasonable, 3% increase in monthly fees (from the discounted rates) for this six-month extension.

FISCAL IMPACT:

The adopted Budget for Fiscal Year 2021/22 included \$225,000 for janitorial services in the Public Works Facility Maintenance contractual services account. The re-negotiated monthly rate, with a 3% increase, of \$16,166.67 per month, would be \$97,000 over the six month extension. A 5% contingency of \$5,000 is requested, for a not-to-exceed total fee of \$102,000. There are sufficient funds to cover this six month extension of the Pureserve contract.

The balance of the budget (\$225,000 - \$102,000) of \$123,000 would remain available for the new janitorial services contract effective January 1, 2022.

PRIOR CITY COUNCIL ACTION:

In 2015, Council adopted Resolutions 2015-046 and 2015-110, awarding the base, 2-1/3 year janitorial services contract to Proserve Facility Services (now known as Pureserve Building Services).

CITY OF CARMEL-BY-THE-SEA CITY COUNCIL Staff Report

July 6, 2021
CONSENT AGENDA

TO:	Honorable Mayor and City Council Members
SUBMITTED BY:	Brandon Swanson, Community Planning & Building Director
APPROVED BY:	Chip Rerig, City Administrator
SUBJECT:	Resolution 2021-038 establishing a schedule of fines greater than \$100 for Administrative Citations pursuant to Section 18.04.080 of the City of Carmel-by-the-Sea Municipal Code

RECOMMENDATION:

Adopt Resolution 2021-038 establishing a schedule of fines greater than \$100 for Administrative Citations pursuant to Section 18.04.080 of the City of Carmel-by-the-Sea Municipal Code.

BACKGROUND/SUMMARY:

Executive summary:

Currently, the maximum fine that can be imposed with an Administrative Citation for any violation of the Municipal Code is \$100. However, the code also allows for the City Council to adopt a resolution establishing fines greater than \$100, up to a maximum of \$1,000. Staff has prepared a schedule of fines which are recommended to be greater than the default amount of \$100 associated with violations of Title 15 (Building) and Title 17 (Planning).

Discussion:

As a general practice, Community Planning and Building first seeks to gain compliance for violations of the Municipal Code. This means working together with property owners and responsible parties to help bring a situation into conformance with the City's regulations. In fact, the Code Compliance unit's name intentionally includes the word "compliance" rather than "enforcement" for this very reason. In most cases, staff is able to help correct violations and bring a site into compliance through these collaborative efforts. However, in some rare instances, responsible parties are unwilling to correct violations simply by being asked. For these cases, the Carmel Municipal Code (CMC) includes Chapter 18.04 which provides various enforcement based remedies, including Administrative Citations for misdemeanor violations. Although Administrative Citations are almost never a first course of action, they are an important tool for the City's compliance professionals to help keep the City in good stead. Administrative Citations are not the only instrument afforded to staff in Chapter 18.04, which also includes remedies like Compliance Orders, criminal/civil penalties, and judicial reviews. Where these other remedies are longer and more involved

processes including hearing officers, and potentially the court system, Administrative Citations can be issued on the spot by staff, and are required to be paid unless appealed to a hearing panel. This makes Administrative Citations the best “next step” for when compliance efforts need to be elevated past working collaboratively.

Section 18.04.080.A of the CMC states: “The fines for each municipal code or ordinance violation imposed pursuant to this chapter shall be set forth in the schedule of fines established by resolution of the City Council. In the absence of a designated fine, the default fine for each violation shall be \$100.00 per day.” Currently, no schedule of fines has been adopted by the City, so the maximum penalty for any misdemeanor violation of the Code is only \$100. While this fine is appropriate for many violations of the CMC, there are some which may justify a higher penalty due to their nature. CMC Section 1.16.010.G.1 states in part that any misdemeanor of the code shall be punished “By a fine not exceeding \$1,000...”, which is consistent with Government Code Section 36901, so there is still a limit to the penalty amount. Therefore, staff is proposing increased fines for certain violations of Title 15 (Building) and Title 17 (Planning) ranging from \$150 to \$1,000. This proposed schedule of fines has been included as Attachment 2. City Council is being asked to consider the increased penalties, provide any additional direction on the amounts, and to adopt a resolution which would implement the new fines.

It should be noted that Administrative Penalties could be applied for violations of additional CMC sections which are regulated by other City departments like Forestry and Environmental Compliance if they are found to be misdemeanors. However, after consultation with the City Attorney, Chapter 1.16 is unclear about whether violations of these other sections are “Infractions” or “Misdemeanors”. Staff intends to return to Council in the near future with an ordinance amending Chapter 1.16, which would clarify this distinction and thus provide additional compliance tools for these other City departments. The schedule of fines would also be amended at that time to include any additional categories of violations which warranted a penalty greater than \$100.

FISCAL IMPACT:

Administrative penalties are not intended to be a revenue source for the City, as they are typically not a first course of action in the compliance process. It is anticipated that any increases to revenue will have a negligible impact on the City Budget.

CITY OF CARMEL-BY-THE-SEA CITY COUNCIL Staff Report

July 6, 2021
ORDERS OF BUSINESS

TO:	Honorable Mayor and City Council Members
SUBMITTED BY:	Sharon Friedrichsen - Director, Contracts and Budgets
APPROVED BY:	Chip Rerig, City Administrator
SUBJECT:	Receive a presentation recommending the Public Agency Retirement Services (PARS) as the preferred Section 115 Retirement Trust provider and direct staff to prepare the authorizing resolution and other necessary documents to establish a Section 115 Trust Administered by the Public Agency Retirement Services (PARS)

RECOMMENDATION:

Receive a presentation recommending the Public Agency Retirement Services (PARS) as the preferred Section 115 Retirement Trust provider and direct staff to prepare the authorizing resolution and other necessary documents to establish a Section 115 Trust Administered by the Public Agency Retirement Services (PARS).

BACKGROUND/SUMMARY:

The California Public Employees' Retirement System ("CalPERS") is the largest pension fund in the country as it manages investments for nearly 2 million members, including active, retirees and beneficiaries, and inactive members for state, school and other public agencies. The City is one such public agency and has two primary CalPERS plans, one for miscellaneous members and one for safety, that combined, represents about 190 covered members, of which about 74 are active members, based upon the most recent actuarial data.

Annually, the City makes a payment to CalPERS that consists of (1) the annual cost for current employees ("normal cost") and (2) the unfunded accrued liability ("UAL"). The UAL is the actuarial liability (the amount CalPERS needs to have to pay for retirement benefits) less the actuarial value of the assets (the amount that CalPERS currently has on hand to pay the estimated costs of the retirement benefits). Similar to other public agencies, the City faces significant increases in pension costs. The increase in pension costs are attributed to such factors as sluggish investment performance by CalPERS, changes in expected investment returns (discount rate) and updated mortality projections. The City's UAL projection, as of 6/30/2021, is \$24.7 million. To address this fiscal challenge, the City has considered various strategies to mitigate its pension liability, including establishing a Section 115 Retirement Trust.

A Section 115 Trust is a tax-exempt investment vehicle authorized by the Internal Revenue Services (IRS) to prefund government expenses such as retirement plan benefits. Assets held within the trust are

designated as irrevocable, meaning that that assets must be used to fund the City's retirement plan obligations. Monies placed within a trust may be invested according to rules governing the trust, which are different than the investment rules pertaining to the City's pooled investments. In theory, the funds placed within a trust can earn a higher rate of return than if the City invested the funds.

Funds placed within the trust can remain within the trust until such time that the City chooses to draw on its assets to pay an annual benefit obligation (i.e. make a payment to CalPERS) or seek reimbursement for a pension-related expense. The City Council may consider adopting policies and procedures that require Council action in order to withdraw funds from the trust. In addition, once a trust is established, the City may change its investment portfolio as well to reduce its risk exposure and mitigate losses.

The benefits of a trust include:

1. Local control over assets, including contributions, disbursements, timing and risk tolerance of investments
2. Investment flexibility and the potential increased return on investment compared to City General Fund
3. Flexibility in determining when and how to use trust assets to mitigate pension. For example, the asset may grow and the City could use the assets to pay off the UAL in the future; the assets may be transferred to the retirement system to help smooth 'spikes' in the City's annual retirement contribution and/or the City may reimburse the General Fund for pension-related expenses for the current or prior year during difficult budgetary times.

On January 8, 2019, City Council adopted a resolution that endorsed the City's participation in a pension rate stabilization program (i.e. a Section 115 Trust) and authorized staff to issue a Request for Proposals (RFP) to select a third party to manage the Section 115 Trust. The RFP requested information regarding the firm's experience in serving local government clients in establishing Section 115 trusts and related investment services; the proposed program team; private letter ruling; trustee and trust administration services, investment requirements and investment performance; fees; references and proposer warranties. In response to the RFP, the City received two proposals by the deadline: (1) one from the Public Agency Retirement Services (PARS) and (2) one from Keenan Financial Services.

The evaluation process was temporarily placed on hold due to other competing priorities at the time, including the development and adoption of the Fiscal Year 2019-2020 budget and the sales tax renewal measure. However, Council renewed its discussions regarding the establishment of a trust and pension mitigation strategies in January 2020 and subsequently in the spring of 2021, including providing direction to staff to resume efforts related to selecting a trust provider.

Keenan and Associates proposal includes Keenan and Associates (administrator), Morgan Stanley (investment manager) and the Benefit Trust Company (trustee). Demonstrated strengths include Keenan's experience with financial consulting services related to GASB 68 and employee benefits, the reputation of Morgan Stanley as a global investment firm and the partnership with the Benefit Trust Company, which is a leading national provider of trust, custody and fiduciary services. Keenan also utilizes a Board of Authority, which consists of a representative from each member agency (participation is not mandatory) to review the trust and provide advice regarding the investment outlook for the future. Keenan charges a flat fee for service.

The Public Agency Retirement Service (PARS) proposal includes PARS (administrator), HighMark (investment manager) and U.S. Bank (trustee). Demonstrated strengths include PARS experience as a leader in providing Section 115 trust administration services and breadth of clients utilizing the firm's trust services to prefund pension costs. PARS team includes U.S. Bank, which is the fifth largest bank in the nation. PARS allows both pension and other post-employment benefits (OPEB) to be funded within the same trust, should the City decide to also utilize a trust for its OPEB liability in the future. PARS charges

fees based on the amount of the invested assets.

A summary table of the two proposals is included below for reference.

Table 1: Comparison of Section 115 Trust Services Proposals

City staff (City Administrator and Budget Director) and the City's municipal financial advisor (NHA Advisors, LLC) conducted interviews with the two firms and contacted other cities for input regarding the trust providers. In particular, staff reviewed the experience of the provider in implementing a trust, the qualifications of the proposed key personnel on the team, the team's communication and approach to working with clients, reputation and integrity of the trust administrator, investment manager and trustee, the historic return on investment and fees.

It is staff's determination that the City would be well-served by either firm based upon experience; the size and type of assets managed; the reputation of the investment manager and/or trustee; the responsiveness of the firms as demonstrated through references and the ability of the firms to provide monthly and quarterly reporting. However, staff recommends PARS as the trust provider as the firm appears to be a better fit for the City's needs based on such factors as the firm's experience in establishing pension trusts, the diversity of its portfolios and its customer focus, including its ability to assist the City with developing an investment policy.

Should Council concur with this recommendation, staff will return in August with a resolution authorizing the City's participation in the PARS Public Agencies Post-Employment Benefit trust and authorizing the City Administrator, as the Plan Administrator, to execute all other necessary documents. Staff will then work with PARS to develop a specific investment policy statement, procedures, and funding strategy for future trust contributions and bring forth the policy for Council approval. In addition, staff will review cash flow projections and make a recommendation regarding the timing of transferring funds from the General Fund to the trust.

FISCAL IMPACT:

There are no fiscal impacts associated with receiving the report and recommendation. The Fiscal Year 2021-2022 Adopted Budget includes an allocation of \$1 million toward pension mitigation strategies, such as funding for a Section 115 Trust.

PRIOR CITY COUNCIL ACTION:

- 1 . Council received presentations on the City's pension liability on April 8, 2018 and December 4, 2018 respectively.
- 2 . Council adopted Resolution 2019-006 on January 8, 2019 to endorse the participation in a Pension Rate Stabilization Program to pre-fund pension obligations and authorized staff to issue a Request for Proposals for a Section 115 Trust
- 3 . Council received presentations on the City's pension liability and potential cost management and alternative payment strategies on January 7, 2020, March 2, 2021, and April 6, 2021 respectively. Council provided direction regarding setting aside \$1 million annually for pension mitigation during its March 2, 2021 meeting.

Public Comment for City of Carmel-by-the-Sea

Regular Council Meeting

July 6, 2021

My name is Joe Petix and I am a Technology Advisor at Alvarez Technology Group (ATG). ATG is a technology and cybersecurity firm based in Monterey County. We are currently a vendor of many special districts and cities in Monterey, Santa Cruz and San Benito counties.

My comments today are regarding the ongoing, persistent cybersecurity threat specifically targeted at local government organizations. The critical function of government and critical infrastructure is literally under attack. We are briefed regularly by the Northern California Regional Intelligence Center and there is evidence that these attacks are going to increase in pace and intensity to disrupt the core of the education system of the United States. This information is being provided by the FBI, the Cybersecurity and Infrastructure Security Agency and The White House. If you would like further information regarding these reports, please let me know.

The time to act is now.

There is a national set of standards for proper cybersecurity practices maintained by the National Institute for Standards and Technology called the NIST Cybersecurity Framework.

One of the core principles is that cybersecurity is now a top-down effort that requires the Board to be primarily responsible for driving cybersecurity efforts. As members of the Board, you must be actively involved in making sure that your systems are protected, as best as reasonably possible to ensure that you are able to safely deliver services to your community.

There is an Executive Order issued by The White House, which requires critical infrastructure to comply with the national cybersecurity standards. We fully expect to see a continuation and expansion of these Executive Orders.

I urge the Board to take emergency action to begin the process of securing your computer systems and network infrastructure. The published guidance is that you should be engaging with a 3rd party, certified Managed Security Services firm as soon as possible.

Please feel free to contact me at Alvarez Technology Group for further information or reach out to your provider of choice. Again, I urge you to recognize the immediate threat against your ability to safely deliver services to your constituents.

Respectfully,

Joe Petix

Hello

I would like to just reach out to the city to let them know Carmel Post No. 512 of American Legion Post, located on Dolores, has been growing its community involvement.. We just helped with a 1-day "Stand Down" for homeless vets. With the assistance of doctors, lawyers, community organizations and tireless volunteers, 114 veterans were provided food, clothing, legal advise and even dental work. We were able to provide COVID-19 vaccines as well.

We look forward to working more with the city of Carmel-by-the-Sea with future events.

We would also like to express interest in helping with the Boy Scout House to ensure it is preserved and maintained. Please keep us in mind for any endeavors involving it.

The Confederate Flag: A Symbol

I love taking walks in my Carmel neighborhood where I have lived for over twenty years with my husband and various members of our family. The eclectic style of homes nestled warren-like in weird neighborhood collections of cottages interspersed with modern architecture, and warm, friendly community, always makes me appreciate this place even beyond its proximity to one of the most beautiful beaches anywhere on earth.

As a historian, I appreciate Carmel's equally eclectic past. Once a great artist colony, it also became an intellectual and political center for Lincoln Steffens and so many others on the left, John Steinbeck among them. The Works Progress Administration (WPA) installed an office in Carmel to help its majority population of writers and artists find work during the Great Depression. When homophobia raged in the America during the Cold War (and into the present), the LBGTQ community found refuge in this liberal minded town.

It is only very recently that Carmel has been aligned in the public mind with other communities of predominantly white elites. Yet, those of us who live here know that the community of independent thinkers remains very much a part of life here. I realized with full force however, how twisted that spirit of nonconformity could become when I was out for a walk one day in my neighborhood.

I stopped cold in my tracks when I saw a confederate flag flying on the front porch of my neighbor's house; someone I routinely exchanged pleasantries with but clearly someone I didn't know at all.

We are used to seeing that flag brandished in everything from marches for white supremacy to the recent attack on the Capitol on January 6. It is not a benign political symbol. Rather, it is a chilling reminder of the worst of America; one exemplified by hate and violence.

Although we all support an individual's first amendment rights to express even misguided opinions and also the right to post what they wish on their own property, the raising of confederate flag crossed a line. It symbolized the effort in the mid-nineteenth century by people living in states located largely in the American South to sustain (and spread) an economic system based on the enslavement of other human beings. They justified their view by focusing on melanin in one's skin and on certain facial features. Humans with more melanin in their skin than others (or were thought to have even a tiny bit more) could be treated as though they were farm animals or farm equipment rather than as the human beings they were. People with more melanin became nonentities, invisible as individual human beings, slaves, and were forced to labor unremittingly under the most horrific and cruel conditions without compensation until they died. They were routinely tortured.

Slaveholders treated slave families with ruthless indifference; casually and unceremoniously split them up, sold off individual members like livestock, tore babies and children from their

parents, sold them to strangers, and sent them away without regard for their vulnerability, health or safety, just like one would treat farm animals or mere commodities. As a result of this horrendous cruelty and cold unconcern, slave families were lost to one another forever. This is what slavery was and worse. None of this is in dispute. It represents one of the most shameful periods in American history and it lasted for hundreds of years.

The enforced slavery of one group of human beings by another based on melanin levels and facial features was both absurd and fiercely defended because it produced great wealth. Slavers went to war and attempted to destroy the entire nation to maintain it with the confederate flag as an emblem. They even persuaded poorer people, those who looked more like them to fight too, even when the less well-off did not benefit economically from slave ownership. The Civil War was not about state's rights. It was a war fought over whether or not America ought to maintain the evil of slavery as a foundation of its economy. As a country, we decided against it.

Yet, the harm slavery produced has lasted for generations and is still with us. It led directly to the development of ideologies such as scientific racism; a pseudo-science that perpetuated the ludicrous and farcical notion of innate inequality based on bizarre definitions of physical appearance. Scientific racism, in turn, led to the eugenics movement, which became the rationale for all sorts of policies such as anti-miscegenation laws, citizenship and immigration exclusions, and land ownership restrictions, redlining in cities and towns, racial exclusions in neighborhoods and weirdly assigning property value to the perceived racial identity of the inhabitants. These policies became normative. Although many have been overturned, the absurd ideology behind them persists, invisible and usually denied by those who benefit most from systems of inequality that place people with the least melanin in their skin at the top of a human hierarchy and those with the most at the very bottom.

It will take generations working together to undo the untold damage that these almost incomprehensible, insurmountable wrongs did to millions of people and their children just because they had more melanin in their skin. However, the undoing and rebuilding does not just happen magically over time or just because slavery officially ended or just because we believe that we became more modern and liberal in our thinking.

As a community, we need to challenge these inequalities as we condemn and end this hateful representation of our past embodied in the confederate flag.

Re. Agenda item 6 Resolution 2021-035 authorizing the City Administrator to execute Amendment No. 3 to the agreement with Peninsula Messenger Service for mail delivery for a not to exceed increase of \$122,000 for the term of July 1, 2021 to December 31, 2022.

I'm concerned about the total cost of this program, especially the opportunity costs.

Messenger Service, at any cost, doesn't address the broader underlying problem of reliably receiving mail and packages in Carmel-by-the-Sea. Also, this doesn't do anything to help residents meet baseline legal and safety obligations like people in nearly every other place in the country.

We need house numbers and some way of reliably linking those addresses to USPS; either for timely pickup at the Post Office or by finally agreeing to USPS residential service. Also, emergency services and 911 should be properly integrated with mobile carrier services and I don't see how you do that without proper house numbers and addresses.

Problems to be solved:

- Yes, home delivery either through USPS residential service or messenger for those who are physically unable to go to the post office
- 911 service that works well on modern mobile phones and wearables with top tier service providers. Since they don't recognize our location scheme, I had to enter my son's address in San Jose for 911 connections in order to activate a mobile device. That's a problem in an emergency.
- Reliable and timely delivery of medicines and medical equipment.
- Meeting modern legal obligations with financial services. e.g. banks, credit card companies, brokerages, insurance companies etc all require physical addresses.
- Reliable integration with complex modern logistics that combine carriers like UPS, FedEx, OnTrac and others with USPS in ways that aren't transparent to consumers. The connected world has long ago moved on from where we are.
- Data entry into a wide range of modern online forms that don't accept PO Boxes and don't recognize our unique expression of locations.
- Federal funding. Census participation was low and some media reports link this in part to a lack of house numbers and USPS residential service. In the future, over 10 years, this could have the unintended result of additional increases in property and sales taxes to cover a forecasted revenue shortfall.

From The Monterey County Weekly:

"The Census continues, but not without challenges, as the deadline is extended through fall"

By Pam Marino April 16, 2020

"In the case of Carmel – which has only a 2.4-percent response rate – the main problem is that homes don't have physical addresses, so residents didn't receive a 12-digit code via postcard for completing an online form. City Administrator Chip Rerig says they're telling residents to go online and click "If you do not have a Census ID" to participate. A paper survey is being mailed on April 16 to those who did not respond online in the last month."

California's Manhattan effect: The wealthy are skipping the census

The issues go way beyond access to the building and Messenger Service contracts. I don't think we can shield ourselves from solving this problem by wrapping it around the character of the village, community interaction at the Post Office, or narrow streets.
